

# Deploying Container Apps using Azure CLI

```
$RESOURCE_GROUP="rg-container-apps-demo"  
$LOCATION="westeurope"  
$CONTAINERAPPS_ENVIRONMENT="aca-environment"
```

```
az group create --name $RESOURCE_GROUP `   
  --location $LOCATION
```

```
az containerapp env create `   
  --name $CONTAINERAPPS_ENVIRONMENT `   
  --resource-group $RESOURCE_GROUP `   
  --location $LOCATION
```

```
az containerapp create --name my-container-app `   
  --resource-group $RESOURCE_GROUP `   
  --environment $CONTAINERAPPS_ENVIRONMENT `   
  --image mcr.microsoft.com/azuredocs/containerapps-helloworld:latest `   
  --target-port 80 `   
  --ingress 'external'
```
